Jagfest 2002 Goes to New Dimensions
For Immediate Release:

June 1st, 2002

(St. Louis, MO.)-- In what could be considered an unprecedented move, the organizers of The Sixth Annual Atari Jaguar Festival have decided to broaden the scope of the event by showcasing not only the Atari Jaguar, but classic and next generation systems. Adding to this, Jagfest 2k2 will also provide an avenue for creators of "homebrew" software to show their creations to the world.
Last years Jagfest in Milwaukee, Wisconsin set the stage by allowing non Atari systems to have a limited presence. This year that idea will be taken further by making their inclusion official.

James Garvin, owner of OMC Games and a principal organizer of this year's Jagfest, states: "Jagfest symbolizes what can happen when a group of gamers actually care about their games, and it has survived this long because of dedication from its community. Our goal is to insure that Jagfest will survive for years to come, and to do this the concept of what Jagfest stands for can be expanded to include gaming in general. The "Jag" in Jagfest won't be lost, though. It will still retain a major presence in the show, but gamers of all types should be able to share some of the same heritage that has kept the Jaguar alive after all of these years. This change is just a natural progression of the show."

Daniel Iacovelli, Founder and President of The Atari Video Club and co-organizer of this year?s Jagfest also states:? The addition of old school and next generation will add a new dimension to the event. My club has seen the progression of this event since its start in 1997, from just Atari Jaguar and Lynx being shown at the first event to the addition of classic systems shown at the last year?s event, it just seemed natural to continue from that plus extending it to new dimensions?.

The Sixth Annual Atari Jaguar Festival (dubbed Jagfest 2k2) is being held in downtown St. Louis, Missouri at The Mayfair Wyndham Historic Hotel. (806 St. Charles Street St.Louis, Missouri 63101. Phone: 314-421-2500) on Friday, July 12th and Saturday, July 13th 2002.

Inky,
I was wondering how wondering about the time duration of this gathering
if we do get it going? I don't think we want to do an all nighter (some people
might have to work the day after)

hello AVCIL members.
just thought I tell you that I have contacted Westchester park district I haven't heard back from them yet(chances are that it won't be there, since most of the time for the rooms are alreday booked up)
now for some good news(so far), chances look pretty good for triton college I have contacted them they have replied back saying they will foward my request to the scheduling department. It might not be at the main location but at the hillside location(which happens to be a mile or so away from my house).
I just asked for information about the meetings room saying that I would like to use it for a local computer users group.(I didn't want to say it was for a video game event or group than it might have gotten dropped)
Dan
ps. I am still open to ideas for this event.(also if you have an idea for a name this event lets hear it I have one "Video Game Summit" or VGS)

Shows how long it's been since I looked at these messages... Yikes!

Well, I have a 7800 I could bring. ONly 1 7800 controller (I ripped the other apart for an experiment I'm considering), but I need to fix my Channel 2/3 switch and both the difficulty switches. I currently have a jumper on them as a stopgap.

I couldn't bring a TV, however. If I had a mouse I could bring my ST as well, but I haven't used it in quite some time.

Inky,
don't sweat on what you can or can bring yet?
as of yet I haven't heard back from triton college
(I have contacted the them again (the person in charge of the scheduling for
the college when I hear back from her I will let you and everybody else know)
if we do get this going though I will try to bring two systems (key word here
is try read on and you'll find out): my 2600 I would to use it to run the
supercharger games I have on the stella CDv2(I have a cd player at home just
need batereies) plus I would to show off the two home brew games I got at cge
(space treat and warring worms) I have two 7800 dead in the water right now but
I have an extra 7800 controller I can bring)
the system I do really want to bring which might cancel me out bringing the
2600
is the Jaguar, reason is so I can get a Battlesphere net going(I got a jaglink
now so I can at least do a two player thing as well a doom death match)
the bad news I won't be able to bring a tv(well I can but it's small and it's
not any good)
like I said though if I we get triton then I'll try to get it set up for a good
date if not it's wait til next yaer unless we do it at somebody house in their
basement.

How dead are the 7800's? I could use one to scavenge for parts, specifically the difficulty and channel2/3 switches...

this way I can contact a place and get a date set.
Obviously Saturday and next week is out since it will be too late

is usually around 6pm)

50. IL Gathering update

From: Dan Iacovelli
Topic: 50 Message: 50

hello fellow AVCIL members:
Just like to inform that I just got an reply (finally) from Triton college.
here is what they sent me:
"We do rent out our facilities. Our policy is at
least one month prior to the vent. I would need to know the dates, times
and amount of people. We also require a Certificate of Insurance. Our rates
vary -- in-district, out-of-district, profit and non-profit organizations "

So all need to know is date to give her (I figure sometime in November before
Thanks giving would be good)
unless you have other dates. as for the rates I figure to go for in-district
(for two reasons, 1. I live in district
of triton college and 2. if we go for non-profit I would need some kind of
proof for that I think(I'll prob ask about that
though just in case)) the time will most likely be around after noon(12:30 or
1pm sounds good to me)
for # of people I'm hoping for a least 20 (I'll prob. tell them 15 though,
this way we will be able to get a small class
room with room to hook our games (unless you have any other ideas))
the main problem is the insurance thing, anybody know what that is Certificate
of Insurance?
if we don't have that then it's back to drawing board.

I know I stated before that a Saturday before thanks giving would be good for this event, then I figured that it might be tough for others since it might be hard because of the holidays and the weather (it's close to winter and it does snow in November here in IL) I would figure that we would postpone the possible event until February this way I could contact some local game shops to see if they could help out(orginally this was going be just a bunch of people playing games but it would be better if we could a few local dealers to come).
let me know what you think.

I got the following information from the person I talked to
in charge of the room rentals and too me it sounds real good:

"In-district fees are:

Non-Profit $25 per day
Profit $100 per day

The Certificate of Insurance is purchased through your insurance company.
It needs to name Triton College, District No.504, Triton College Trustees,
and Triton College employees as an additional insured with minimum limits
of $1,000,000 bodily and $1,000,000 property damager per occurence and in
the aggregate."

now the prices sounds good to me,
I'm not sure about the certificate of insurance though I'll have to contact my
insurance company to find out about that see if there is a small fee for that

Inky, I'm going to send a letter to my insurance agent sometime this week
to ask about that. the thing I'm worried about is that I don't think I'm
covered
with them(my health is covered by the union I work for. that why I figured on
writing a letter to agent to find if I can get it.)
as for room size: I'm going be setting up a yahoo group soon to see how
many people are series about coming. I figure a room that will fit about
40+ people
would be good.

What you may want to try is eshopinsurance.com It's a site run by
the company I work for. Just enter what kind of insurance you're
looking for, and then it'll spit out the names of local agencies that
use our software whom you can contact..

Hello Fellow members(JCU and AVCIL),
Just like to tell you that I have updated the web site with the following:
Added a new page to Events site (the AVC/JCU 2003 US Tour page)
also added a brand new event to the events page AVC Presents The Video Game Summit
Or VGS for short. This event started up as discussion on the Atari Age Forums under the events topic
Subject :Chicago which was started by Inky. Originally this event was just going be local people playing games
but as the discussion grew I figured the best thing to do is have some local dealers come as well.
As of right now: we have a location being set up for Triton College's Hillside Campus in Hillside ,IL
As for a date we are currently looking at either February or March when everything becomes finalized
I'll put out a PR announcing the date and time. Until then be sure to sign up to The VGS mailing list
if your interested in attending this new event(which can be found at the 2003 US Tour page).

The next issue of the Atari Zone Fanzine should be done soon.
thank you

63. Jagfest 2003-Thriving in the Jungle

JAGFEST 2003 - THRIVING IN THE JUNGLE

For 2003 Jaguar fans have agreed to hold multiple JagFest events nationwide to allow other fans the opportunity to attend during this historic tenth anniversary of the release of the Jaguar by Atari Corporation.

JagFest 2003 "Thriving in the Jungle" will demonstrate the Jaguar is still alive and kicking with numerous hobby game efforts underway nearly a decade after the Jaguar's first release. Each event will feature demos of lost and upcoming games, as well as one or more tournaments with prizes for some of the best Jaguar games out there.

At this time, the following JagFest events have been established:

JagFest @ MWC

When: June 7, 2003
Where: Milwaukee, WI
Lead Organizers: Dan Iacovelli

JagFest @ VGS

When: July 12, 2003
Where: Lombard, IL
Lead Organizers: Dan Iacovelli

JagFest @ CGE

When: August 9-10, 2003
Where: Las Vegas, NV
Lead Organizers: Carl Forhan and Scott Walters

There's no way these few organizers can accomplish a successful event alone. We need fans to commit to attend to whichever shows they can. We need equipment, unreleased games, demos of upcoming games, tournament prizes, flyers, web pages, and more. If you're interested in organizing a JagFest event in your region, or would like to assist with other established events, please send a blank email to JagFest-subscribe@yahoogroups.com .

Long live the Jaguar!

Also just wondering how many of you here on this list is interested in coming to show or getting a table. Hello fellow members,
It getting close to convention season again which also means that AVC/JCU will be planning our next tour.
So far 2 stops are being planned out MGC in WI in May 22nd and 23rd(I'm planning to be there,but in case I can't make I will need somebody to rep AVC/JCU) and VGS'04 in IL on July 17th(Of course I'll be there, it's an AVC event).
Now for the other shows:like PC5 or CGE: I will need a rep there.
What does a Rep have to Do: basicly All I need is some body to report on the show so it can be posted on the website and in the fanzine. thats all, If you do this I'll send you a copy of the fanzine that has your review in it.
just let me which event your planning to attend in 2004.
(I don't really need to have a physical appearance at the shows, but if you happen to decide to get a table to rep AVC/JCU at the show let me know what you have planned and if you need some fanzines)

Well, I can't say much for the rest of the shows, I might be able to go to the IL. AVC, but I'd sure like to help at the MGC. But is it going to be focusing on Jaguar or Atari in general? I have lots of Atari equipment, but I'd really like to see a good Jagfest at MGC too. I mean one with multiple tournaments and Jaglinking and lots of rare protos and such. I have 2-3 Jaguars, 2 monitors and a TV, 1 copy of BS and 1 copy of BSG, Jaglink (if I'm bring all this stuff, I'll get a Jaglink2 or two to expand networking beyond 2 console (if anyone else has BS that is, or more than two aricars). But, I also have a flashcart, and images for it like totalCarnage 1p version,BHH (of course this is now available) and lots of other BJL/JUGS/flashcart demos. But I also have on cd to show; american hero(although this is porn and probably inappropriate), SoulStar, Varuna's forces demo&fmv disks, BlackIce/Whit noise, 4play demo disk, Native demo disk, and of course two copies of Doom for networking. Lots of Jaguar memorabilia and unique items to display. I'll also want to be showing off my new Jaguar controller (to be released in conjunction with Ambient Distortions)that will get an official announcement and release sometime in the next couple months. So let me know Dan what i can do, I have 8-bit and 16-bit and 2600/5200/7800/lynx stuff too(lynx cable and one copy of several linkable games)

Matt,
curently for VGS as atari area goes: we will have a our Lynx section
return: Tom L and his 8 lymx , so that covered, some jaguars are needed
though I do plan on bringing mine with the jaglink and BS and doom.
and a bunch of carts. I don't think I'll bring my 2600 unless it needed.
as MGC goes: well, I'm just planning doing a AVC/JCU table fanzines binder and
my jag.
if you want to do the jagfest stuff there that will be cool with me I'll try to
help out too. I don't know how the Lynx section is going be done. (I Think goat
store is setting that up)
btw: tables at VGS: 15.00 each. if you need tables I'll send a link to an
e-vite
or the e-vite itself.
Or go to the VGS website to get the evite there.
Dan
(I am planning to to go MGC but it's going to be fight because my bosses at
work at giving some gruff that it a holiday week and it isn't)

95. New Tournament Style to be done at VGS□04

Yahoo group: AVCIL
Date: 2004-03-02 15:57:27 UTC
From: Dan Iacovelli
Topic: 95 Message: 95

For Immediate Release:

March 2, 2004

The Atari Video Club/Jaguar Community United has announced plans for a new tournament style to debut at The 2004 Video Game Summit.
The tourney style will be known as Spy Games in which eight players will be chosen to compete in games in order to add prizes to final prize package and one of the eight players will be known as the Spy, a player who was chosen to make sure the prizes don?t get added. (If this sounds familiar to you it should because I got the idea after watching ?Celebrity Mole? on ABC-TV (I also thought about doing something like this last year, but never went through with it)) Also like the TV show, after each game a quiz will be taken about each player to figure out who is the Spy, the player who scored low on the quiz will be eliminated. Now here?s the twist, there will be no exemptions, so everybody is a risk, plus at the end of tourney The Spy will get a chance to win the prize package when the Spy will play against the player who figured out who is the Spy. Also visitors to the show will be able to guess who is the Spy (hint?s will be hidden the program, plus they will be able to watch the players as well). More details on Spy Games will be released next week (games being used and how to enter a chance to be player).

The 2004 Video Game Summit is being held on July17th, 2004 from 9am to 6pm at the Lombard Inn and Suites hotel (Heron Point Building) formerly the Quality Inn and suites hotel 645 West North Avenue, Lombard, IL.

Now we started the 2004 battle for the WC spot on sept.10th when the marlins

heres a brief recap of what happned so far:
MIAUG took the first game when Marlins beat the Cubs 7 to 0
AVC(IL) tied it up when the Cubs won the second game 11 to 2
Todays Game:(9/11) AVC(IL) took the lead when the Cubs won 5 to 2
Currently The Cubs are alone in the WC spot (depending on how the other teams
playing do) and the Marlins are 2.5 games back.

Atari Video Club Officially Opens News Stand
For Immediate Release:
October 18th, 2004:

The Atari Video Club is proud to announce The Grand Opening of the AVC News Stand.
Dan Iacovelli, AVC/JCU Chairperson, started opening the news stand back in June

of 2004 with the Final Jagfest issue, and later added the other 6 six Jagfest issues to the news stand every 10th day. The news stand is actually a reworked version of the old back issue pages from AVC online the clubs website (which is

still accessible but only through the news stand).
The News Stand has images from the covers from the issues as well as full descriptions of the issues, plus an extra feature to the news stand is that fest issues are not only available in normal print versions (as they have been in the past) as well as in PDF form but will also be available at cafepress.com.
Currently as of this writing only the Jagfest issues are listed on the news stand as well as the programs from our computer and video game trade show The Video Game Summit (the programs are only available thru Cafepress.com (the 2004

program is currently at the VGS shop at cafepress.com (http://www.cafepress.com/VGS) while the 2003 program is listed at AVC news stand at cafepress.com (http://www.cafepress.com/avcnews) (this is where all the jagfest issues are at as well)).

AVC also announces plans for a new magazine only to be available thru cafepress.com To be entitled "Into The Zone". This magazine is actually a combination of 2 regular Atari Zone issues (Regular issues are uaslly 12 pages long). Regular Atari Zone issues will still be available in normal print and PDF forms) The first set of "Into The Zone" issues will actually come from the back issues of the Atari Zone (while there are a few back issues that are more 12 pages long they won't be combined but will still be called "Into The Zone" for the cafepress edition (the normal version will be

called "the Atari Zone").
"Into The Zone" is most likely to debut some time early next year (it won't be available by subscription though but the Atari zone issues will still be)
The AVC News Stand can be viewed by going to AVC Online (http://avc.atari-users.net) and clicking on the button that will take you to news stand site.

Hello fellow members,
Just letting you know that AVC/JCU will be starting it's
Planning Chats for The 2005 Video Game Summit.
As most of you know, we were in contact with they people who did the
Video Game Developers Summit also held in IL in sept. they were looking for
another show to join, I decided to step up to plate and see if it was possible
it looked good until I got an e-mail from them saying that it wouldn't be a
good fit since their focus was on academic and development of games(more of
workshop then just doing keynotes) I still offered them to come to the chats
and the show.
any who, the chat will take place at playandview.com chat room from 7pm to 9pm.
Hope to see you there

Atari Video Club/Jaguar Community United announced today that our next show will take place on August 12th,2006 at the FairField Inn and suites in Lombard,IL (the same location we had it for the past 3 years).
Right now we are looking for people to help with the show.
here are the only parts we need hep with:
1. Advertising: Flier's and/or mentions in the local papers by you.(the fliers should be similar to the one I did for the past 2 shows)Also fliers can distributed at certain game stores (or computer users groups).
2. Organization: at this time we basically have two people working on each side of the show: Corey Koltz from 8-bit classics.com is working on the Video Game side of the show and Julian Wolf from Suburban Chicago ATarains users group is working on the computer side of the show. These guys can't do it alone if you care to help either one of these fine gentlemen please e-mail me and I'll contact the person you want to help.
Also to further help: Corey has set up a private section in his forum at 8bit Classics.com for us to use for the show (I've already posted the first message which is similar to this) for those who wish to be part of it first go the forum and register(if you haven't already) then e-mail Corey at(Corey@...) and let him know that you are part of the VGS Event committee so you can post on the section.
I should have more information coming soon about signing up sponsors and/or vendors.

For Immediate Release:

Atari Video Club/Jaguar Community United is pleased to announce that they are returning to WI on June 3rd and 4th,2006 for The Midwest Gaming Classic to host the Jagfest Section at the show. At the 2004 show we had a good turn out on the first day of the show, and we want that trend to continue.
AVC has been involved with Jagfest since 1997 when the first Jagfest was held in rosemont,IL and we enjoyed being part of the festivites in some way or form at other shows. In 2004,AVC decied to stop producing thier Jagfest issues when they released their final Jagfest issue which covred all shows from 1997 to 2003(U.S. and Overseas).Daniel Iacovelli,AVC/JCU chairperson, recently announced that they are going to be producing a special black t-shirt to commemorate Jagfest 10th year anniversary coming up in 2007. the front of the shirt will have the Jagfest on tour logo and below that the words in red "1997 to 2007 ten years and still growling".
The shirt is scheduled to make it's first appearance at the Jagfest section at Midwest gaming classic, where AVC will be taken orders for it. Also AVC announced the jagfest on tour t-shirt and the Final Jagfest issue cafepress.com version (autographed by Daniel Iacovelli) will be doanted as a prize for one of the Jagfest tournaments.(plans are in the works for t-shirt and jagfest issue package deal as well in the future if sales goes well)

Atari Video Club announced not to have a show in 2007.
For Immediate Release:
8/19/2006

After major consideration AVC has decided to postpone the Video

this decision:
First, we had a low attenendence this year
and second we took a major loss in funds this year more then
what we did in the past 3 years.
so with those factors in place,it was best that we take a page
from MGC and CGE, which is take year off and come back fresh
the next year. So to all those wo either helped,vended,exhbited
,sponsored or attended on behalf of the VGS staff, we would like to
say thanks and we hope to see you in 2008.

Yahoo group: AVCIL

From: Dan Iacovelli
Topic: 154 Message: 161

Justa couple quick updates:
Westchester park district contacted me today(via e-mail)
and as I figured they don't have net access, and they told me no money can change hands
so that leaves out thier place for VGS'08(it also leaves out location for local meetings
becvause they don't lease out the place)
Also look for announcemnt for volunteers for VGS'08 after MGC and CGE, I plan to
announce the location and date around that time as well(plus a few changes to register for
tables and such)

162. VGS call for help

Yahoo group: AVCIL
Date: 2007-07-12 22:57:04 UTC
From: Dan Iacovelli
Topic: 162 Message: 162

Hello,
I just want to let you know we are approx. 1 year from VGS'08 (decide to move the show back to July for next year,since the first three shows had a good turn out compared to the August show we did last year). So to anybody who was either on committee last year(Corey, Emily,Paul,and Julian)and wants to continue or anybody who wasn't on the committee but wants help out please let me know.
here is the basics right now what the show needs:
1.Sponsorship committee: help contacting potential sponsors(and or vendors)*
2.Raffle/Tournament committee: basically help with the raffles and tourneys**
3.General Help:these are people who will be working with main committee members listed above(also will help with greeting people at main table)
*the main person on Sponsorship committee will have partial access to the eventbrite page which is sending out the e-mail e-vites from there as receive notices from attendees and view the invoices(and help manage the orders)
** people on this committee have the following jobs:

decide what prize(s) go to either the raffle or tourney
organize the time table for the tourneys(the raffles are going be schedule by me which are usually about every 2 hours)
and keep track of the winners and report them to me or who ever is working the main table when I'm busy)
threes one small detail I left out:(it's basically hinted on the VGS layout page(which isn't going to change unlike last year when it switched three formats)) the raffles are serving a second purpose next year, it's being used as way to pick out contestants for our new game show based on a popular caller game show. can't tell you what it is now because it's going to be officially announced end of the year.
if your interested in becoming part of the committee please e-mail me privately at videogamesummit@... and I will fill you in on more details.
Thank you
Daniel Iacovelli
PS. I've already made a new web banner and buttons for the show we don't have to do that. also we are going to have new fliers made and a brand new promotional poster based on the TG poster made us for last year.

In the tradition that started at CGE and continued into MGC:
AVC Online proudly follows the tradition by not only having an after
the show gathering but as well as
having Pre-show gathering.
the Original plan was to have just an after show gathering at Nickel
City arcade in Northbrook,IL
but Todd Rogers from Twin Galaxies has to leave right after the show,
so we moved it to Friday july 11th
but we also going to have an after the show gathering at Safari Land
in Villa Park,IL.
The full details are still sketchy, but for now we would just like
head count of those who are coming to the show as well as the gatherings

I don't know how many of you ever went to this show, but there a small commodore /8-bit computer show at the same hotel VGS is located.
I decided to show up to scope out the layout.
and while they had ever table filled, there wasn't a lot of people attending the show(of course the room was already paid for unlike VGS is sole supported by vendors and sponsors and other stuff)
also a couple notes:
1. there was absolutely no signage so nobody knew where it was at unless you've been there before
2. They didn't use the deli and yet it was free to use.
just thought you would like to know this.
AS for VGS'09 we have some plans to be worked out for 2009 and should be announced before Nov 5th)

184. Jagfest and VGS news

Yahoo group: AVCIL
Date: 2009-01-20 17:47:26 UTC
From: Dan Iacovelli
Topic: 184 Message: 184

First let me tell you about the state of Jagfest as it is:
Jagfest at MGC, will done by Marty who will be doing a Atari section at the show.
AVC Online will be having a table at the show displaying the Jagfest issues with the new covers done by the Jagfest cover design contest winners(currently issues #3 and 4 are scheduled to show up(issues #5,6 and 7 might be done by then as well)
We will aso be selling AVC Online and Jagfest On Tour Shirts(VGS shirts will only be sold at VGS at the shop tables) speaking of the Jagfest cover design contest you can still enter it full deatils
can be found at http://avc.atari-users.net/index_files/Jagfest_design.html
(AVC Online is a proud supporter of Jagfest since it's first show in 1997 as we were part of it)
Jagfest issue #7 is currently being retooled to include Jagfest reports up to 2007 as it was the 10th anniversy of Jagfest(the reason for this is because when my hard drive crashed I lost the PDF version, still have the MS Word version(but incomplete) and I still have the hard copy as well)
Jagfest at VGS will be done differently then Jagfest at MGC:
1. Atari Jagfest Challenge high score tournaments: the following games are being used for the Challenges: Classic Gorf on the Jaguar CD, it was used last year when Todd Rogers set the score for Twin Galaxies and then it was beaten by Ken Williams.so it will return for this year.Tempest 2000, a game that has been popular at every Jagfest and Alien Vs. Predator (marine) another popular game for the Jaguar.
(winners of the these games will geta gift certificate for Jagfest item at AVC News Stand)
2. Jagfest Network gathering in the deli 2 hours before the show ends:
since the first Jagfest the Jag network has always been a big thing,so we are going to bring it back, if you have a Jaguar(s), TV's or monitors, Doom, BattleSphere and/or AirCars and way to network (jaglink,Catbox,Scatbox) you can get a free table,just pay for your admission, all you have to do use the VGS Form and select "Jagfest network" and fill in the information in reguards to the Jagfest network.
(winner of the network games will win a gift certificate for a Jagfest item at news stand)
Now for some VGS news:
Staring this week, We will have the first annual Video Game Summit Cover design contest for the Program. the Program is going be based more on the CGE program with less artcles and more ads. (this contest differes from the Jagfest contest, first you will only be doing the front cover, the back cover is going to be used for ad space to be use by our sponsor for full page ad) For more details: go to
http://avc.atari-users.net/Events/VGS_files/VGS_design.html
When I have more news on VGS I'll be sure to post it.

189. Video Game Summit News: (2600 challenge tournaments added and see history in the making)

Yahoo group: AVCIL
Date: 2009-04-14 14:55:03 UTC
From: Dan Iacovelli
Topic: 189 Message: 189

The Video Game Summit Staff is pleased to announce the following news for the 2009 Video Game Summit:
First, The 2600 Challenge tournaments will feature a return of a hero from past shows and and old arcade favorite:
Back in 2003 I did a hack of Activision's Keystone Kapers game called Laserman 2k3,which is a prequel to the Laserman
trilogy, where you as Laserman had to catch Dr. X before he escaped from his lab. you had to avoid missiles, bombs as well
as picking up guns and such. this game made it debut in the 2004 VGS being shown on emulator thanks to johnny armstrong
then as part of a prize in cart form in 2005 as part of the tournament won by steve lucas.
Now in 2009, Laserman 2k3 is back in cart form along with the it's sequel Laserman.
the Laserman trilogy started back in 1984 when I orginally programed the game for the TI-99/4a, based on Tempest
because being a Tempest fan I noticed theTI didn't have a Tempest like game, anyways, the game takes place in the past,
when aliens from the future come to 1984 to take over the earth,they tried in the furure but failed because our technology
in the future was more advanced then 1984. we have learned that thier base is located in the Bermuda Triangle .
the only person who can defeat the aliens is the hero from the future "Laserman".
in this game your objective is to shoot down the bombs that the aliens are dropping on you,you are given 3 lives.
There is some difference from the original Ti-game and the 2600 port : the Ti version has speech the 2600 doesn't
and the graphics are bit more different obviously and the Ti version has 5 levels (the current version of laserman on the 2600
only has one)
The Laserman Challenge start out with 6 players playing for top score on Laserman 2k3,
then the top 2 players will play Laserman the one with with the top score will win the two carts with special labels
and a Gift certificate to the AVC news stand. tournament will begin at 2pm at the tournament tables.

Recently at the 2009 Midwest Gaming Classic,Paul "ZimmZamm" Zimmerman has not only turned over the score
on Phoenix on the 2600 but has also set a new record for the game with a score of 1,124,779.
A month later at his house, he has beaten that score with a score of 2,344,018,which was recored and sent to Twin Galaxies.

The Phoenix Challenge is for you to try to beat his scores or at least get the high score of the day.

This is a walk up tournament starting at 11am till 2pm all you have to do is walk up to the tournament tables
sign up and play. you are allowed two practice games before you actual play.
The winner will receive A gift card from the AVC news stand as well as prize from one of our sponsors(TBD).

Second, You can witness history in making by registering online for the show:
The 2009 Video Game Summit is pleased to announce that Paul Zimmerman, will be at the show to not only beat his two scores,but will also try for 3 million. His attempt will begin two hours before the show starts,
and you can be there to witness it it,just by registering online and you will admitted to the show at 9am.
(His attempt will be recored and sent to Twin Galaxies) We ask you if you plan to take pictures of his attempt
please no flash photogaphy.
(your early addmission also allows you to see the other challenge games being used,before the actual tournamts)

thank you
Daniel Iacovelli
Video game Summit Promoter
Todd Freidman
Video Game Summit Co-Promoter

Paul "ZimmZamm" Zimmerman

(We are still looking for more helpers for the show and some TV's as well.please let us know if you can help make our show a sucess)

first of all I would like to thank to all that came to show
it was one of our best shows yet, despite a few problems here and there.
not counting vendors we had approx 31 attendees(I say approx. because I
might have missed a few people who came in and didn't pay, and a few
people didn't sign the sheet)
while the tournaments and raffles didn't go as planned most people still
had fun.
Second I would like to congratulate, our own tournament organizer, Paul
Zimmerman, for not only beating the record on phoenix for the 2600,but
shattering it with a score of 4,014,436.
AVC Online has awarded Paul, with a $50.00 E-Certificate for the AVC
News Stand at Cafepress.com (cafepress.com/avcnews)for being the first
to reach the 3,000,000 mark on the game. (besides seeing the recored
video at TwinGalaxies.com (VGEVO had it for short time as well) you can
also see it at the VGS website,just go the phoenix challenge page and
click on the link)
and Finally, the VGS Package sale has been revised and extended :
The new Package sale consists of the 2009 Program and Poster.

200. VGS website now updated

From: Dan Iacovelli
Topic: 200 Message: 200

Just thought I let you know that I have updated the Video Game Summit website
http://avc.atari-users.net/VGS.html
the layout page has been updated

The date of the show is July 17th,2010 from 11am to 6pm
same location as the past shows(Heron Point Convention Center, Lombard IL)

the registration page has been updated (I dropped the Eventbrite forms in favor of down-loadable interacted pdf forms (when you select your paying for the amount will be shown no need to fill the amounts))
We are dropping the Jaguar network sign up,but that is now being part of the Part time staffer Program.
we cut down on tables as well: only the 12 tables along the wall will be used to sell for vendors/exhibitors
the center tables are for our gaming/tournament area.(if any of the center is open before the show we will put those up for sale)
Table prices are 2.00 higher then last year 12.00 per table (includes admission for 2) Admission is still 3.00 per person
(Table price and admission price does not include pop and chips those are being sold separately)
Sponsorships back down to two levels Basic and Advanced, but we added an extra thing to that
now you can purchase sponsorship for up to 4 shows that includes the current show and 3 future shows
(the discount for prize donations is still in effect for sponsorships)
Hope to see some of you at the show.

As Mark Twain once said: "The reports of my death have been greatly
exaggerated." this can be said also for VGS as we will return
next year thanks to all those who have posted their concern about it
after I mentioned that we might be ending after this year.
The VGS Staff are working hard making this one show the best it can be.
the official PR can be seen on the website

(a second Pr is being planned as well that concerns the special edition
posters)

215. Jagfest updates

I know I haven't been busy with the list with work and VGS as well
working on returning to Midwest gaming classic so I figured to restart this.
first JagFest2K11@MGC is being planned.
here is what Dan L mentioned on JS-II forum:

Ok with that out of the way: I am planning to return to MGC and Co-run the Jagfest section Me and Astropuff did a pretty decent job with the space we got. but the truth is that we need more then just two of make this reflect Jagfest of the past.(unlike last year this year I plan only to have Jagfest on tour T-shirts there instead of JFOT and AVC Online shirts) Also I know I am behind on the book, but when your the only person doing the research and publishing and you have work and then pc goes haywire, it throws your schedule off. But to make up for the lost time on the book I plan release a JFOT SE Poster, this will resemble what the back of the tour shirts look like with some cool modifications as well spots for some signatures from past Jagfest host. these will be hand numbered and will only be sold at MGC(when it's officially finsihed I will posta Press release on it) plans are in the works for post #1 of the posters to shipped out of state and over seas as well ala globtrotter cart so those can see it and sign it.

Jagfest 2k11@VGS: as always is mostly tournaments and some other stuff but if you would like to help with and also make it a success let me know. (for those who are planning to be either shows and would like to request a Jagfest tour shirt or T-shirt, the new request age is being worked on and when it 's ready I will announce that as well)

Thank you
Daniel Iacovelli

Dateline AVC to feature one of the most famous person in Video Game History

Chicago, Illinois ? (April 20, 2011) ? Last year AVC_Live had the founder of Atari, Chuck E Cheese restaurants and now Uwink restaurants, Nolan Bushnell. In our new show Nolan will return once again as our first official guest on Dateline AVC show.

On May 29th, Nolan Bushnell will be our first official guest in our new DateLine AVC show.
A bit of information on DateLine AVC first, Our Normal AVC_Live show ended it run on Jan 9th of this year, and it was replaced by Dateline AVC. As of Feb 13th, our inaugural guest for that time was supposed be Nolan, but it fell through. Since then Dateline AVC has been hold for while (with a brief show during Midwest Gaming Classic).

Dateline AVC is an updated version of an Dateline Atari Real Time Chat(RTC) that was done on GEnie online services that featured an person from Atari taking questions(usually it was Bob Brodie). The major difference between Dateline AVC and Dateline Atari is that Dateline AVC will feature a 6 person video chat as well as text chat. Dateline AVC is being done via Stickam.com which allows up to 6 people to do a video chat.

Nolan will be on Dateline AVC to do a follow up from the previous interview we did and also discuss more on Atari and his past works. We also be taking questions from viewers via Skype,Yahoo, Facebook chat, Voice mail, and live call ins(as well as questions from the chat room). To be part of the video chat e-mail me so I can send you and invite to video cast(you need to be member of stickam (it?s free) to be in video chat))

The location of Dateline AVC is here http://stickam.com/danavc (as well at http://avc.atari-users.net/index_files/AVC_Live.html and at the round table page at http://avc.atari-users.net/index_files/GOMHSC.html) the show will be simulcast on our ustream page http://ustream.tv/channel/avc-live-podcast/ . The show will start at 3pm Central time and scheduled to end to before 7pm Central time.
If you?re interested calling our voice mail # for questions please call

it before 2pm CT and after 5pm CT (Thursday and Friday) the voice mail line will be available all day Saturday and Sunday though. The number to call is 708-688-4561(this is not a free call so long distance rates do apply (unless you have a VOIP like Vonage)) Live call ins can be done either through yahoo IM or Skype (both ids are AtariVideoClub) If you?re sending messages via Twiter for questions send a direct message to danhere2 , face book chat I?m Dan Iacovelli (look for the one who?s birthday is June 13th,that is me in my profile if your not one of my friends).
I will have to ask you to keep your question clean and respectful to our guest, I run a clean show with no vulgar language. Hope to see you at Dateline AVC

it's been a while since I sent a message about a meeting or a meet up in this case.
I recently talked via private message and e-mail with Ray Gleason (back-in-Jag on Jagsector-II, formerly known as Raynet on Jag interactive) about getting together at the local arcade near me Galloping ghost Arcade http://gallopingghostaracde.com .
then he just got his battlesphere game from e-bay. so I mentioned that if I can swing getting the game room for prob 4 hours(on me) that we can prob hook up our jaguars for network for battlesphere (and maybe have a side meeting as well to maybe discuss our plans for 2012 for more meetings at the arcade or at the westchester library(most likely it will be at the arcade unless the game room is booked,then it just be a meet up) it will be in november though. I'm going to arcade next Saturday though around 11am or 11:30am.
if anybody interested let me know a head of time and maybe I will work something out.

AVC Online Announces The 2012 Video Game Summit

Chicago, IL 9:15 PM 11/2/2010 Remember how much fun you used to have playing Atari, Nintendo and all kinds of games on your computer? Well, you will have the rare opportunity to play these great games again at the Video Game Summit, Chicago 's premier video game trade show. In fact, dealers in retro games will be on hand offering games, controllers,systems and memorabilia and will be prepared to buy or trade for the games you have held onto since you were a kid. Who knows, you might just have an Atari cartridge worth $1000 or more collecting dust in your attic.

"Retrogaming," the playing and collecting of classic video and computer games, is more popular than ever.
In fact, a dedicated group of programmers still issues new games for game systems,such as the Atari 2600, last seen in retail stores over fifteen years ago. The Video Game Summit, now in its ninth year, brings together classic and modern generation gamers from all over the country to swap stories, games and to compete in sanctioned tournaments and raffles.
The event is open to the public and people of all ages with an interest in video games or computers are encouraged to attend. According to the event's organizer, Dan Iacovelli, "we plan to have many retro and modern game consoles for play?.

The date of the show will be July 14th, 2012 from 11am to 6pm at The Heron Point Convention Center,665 West North Avenue , Lombard,IL (adjacent from the Fairfield Inn and Suites hotel)
Admission is $5.00 per person (children 12 and under with an Adult are Free) and booths are $30.00 (a booth consist of three 2 x 5 tables 2 side tables and one front table).

Effective August 1st,2012 Ebook versions of the programs
will no longer be free. The main reason for this
is because I saw how many people got the program
and instead of not making money I decide I should make
a small profit on it)
2011 ebook: 1.77
this years (2012): 1.66
this what it cost me do to print the programs out
lulu does charge fees which are taken out from the sale
(.99 base price and 10% of the net profit, my profit will
be small but it worth it)
this will also effect future ebook programs as well
hope you understand.

241. Happy New Year

Yahoo group: AVCIL

From: Dan Iacovelli
Topic: 241 Message: 241

Hello Members it's a new year and time for some news about AVC
Online/AVCIL(IL group)and Video Game Summit.
But, first some sad news, after months and years since the AVCVA(Virgina
Group for AVC)
since it was launched I have decided to delete the yahoo group. it had
had much activity plus the group only had 6 members.
now on to some good news:
sometime today I will be doing the first Videocast on the ustream channel
(I prob won't use the stickam much unless I need to do a press conference)
for 2013.
The AVC Online Website will be starting some changes (you may have
noticed VGS site
has been changed as well, we are still working on it)
Also I will be working on couple projects on the side for AVC Online:
1. The Final Atari zone Zine(this will be an e-zine only) it will
feature reports from CGE,MGC and VGS from 2012 and some other articles
from the past issues from TAZ
as we put the zine to rest officially.
2. The New Atari Gamer Zine (set to debut in April 2013) this will also
be an e-zine only
the Premier issue will be shown in print form at our VGS Event
AtariMania (copies will be available for donation toward VGS.(we are
currently looking for reviews and writers for it(articles must be atari
related))
3. the 10th Anniversary issue of The Jagfest issue of the atari zone,
this project has been put on hiatus for while due to pc an work issues.
I'm finally going work on getting it out door(this will be the last
official book to be on Cafepress)
4.AtariMania: VGS's first Event for 2013 prior to VGS in July(subtitles
April showers bring Atari Followers) this Event will take place at
Galloping Ghost arcade in Brookfield,IL on April 13th,2013 from 1pm to
9pm(we are currently looking for people to bring in Atari Systems,Games
and even tvs) we will be also taking donations for VGS at the Event to
help defer any extra expenses.(this will also be used for the first
official IL meeting for AVC IL group, there might be some meet ups in
the future as well)
and finally VGS, our tenth year,ninth show on July 13,2013 new extended
hours 9am to 7pm at heron point convention center in Lombard,IL
(registration started on Black Friday 2012) this year we are working a
newly expanded Arcade area known as Arcade Alley which will be in the
East Hallway leading to main room A. We hope we can get Galloping ghost
and logan hardware to return and maybe a couple more arcades added.
For more information on VGS and it's Events go to VGS website:
http://avc.atari-users.net/VGS.html
(the Video cast won't be live I will be recording it first and then have

up at ustream channel which can be seen on AVC Online
http://avc.atari-users.net)
I will be at MGC in march (and if CGE is announced I will most likely be
there)

From: Dan Iacovelli
Topic: 243 Message: 243

New T-shirts to be shown at AtariMania AVC Online and The VGS Staff announce that after 8 years of the two boys
playing video game design it was finally time to retire them and put a new design on the front 0f the shirt.
The new design is loosely based on the Twin Galaxies Card for VGS and come in two versions:
First Version has the slogan Paul Zimmerman did for the t-shirt"Chicago's Only Video Game Summit" and the second has the slogan that was on the card "Chicago's Premier Video Game Event".
the back of the t-shirt also got changed not only does it have our second slogan "From All Ages... For All Ages..." it also has the logos of our main three events from the show "Jagfest, TurboFest and Harmony Games" as well our two mini VGS Events "AtariMania and OcTurboFest".

Prices for both versions are $16.69 and there is a limit of two (which also means if you want both versions that will be your limit,or you can two of the same version)
You can find a link to the T-shirt pre-order form on the Register Page <http://avc.atari-users.net/Events/VGS_files/register.html> (this for pick up at AtariMania only)

On April 14th pre-orders will go to 17.00 and can be picked up at VGS (or you can order them from cafepress.com when they go active at the same time (cost will be higher though)).
After VGS the rest of the items that has the 2 boys playing games graphic will be changed over to the new graphic(the ultimate prize package for the raffle at VGS will only have the new shirt, but after VGS you can order it from cafepress when the the rest of items will be changed over)

Topic: 244 Message: 244

Greetings, programs!

Just wanted to drop a line and introduce myself as an Atari (and somewhat other classic gaming) fan and collector.

I'm in Chicago (north side) and am a huge 2600 fan. I'm still working on a complete 2600 boxed collection, and also own a 7800 (and someday, a 7800 XM). I also dig NES via my Retrozone multi-cart, and my Vectrex as well.

Looking forward to meeting people in the area, to search out new places to buy (besides People Play Games and Videogames Etc in Norridge). I'm also on AtariAge as Lapetino, but here I'm just Tim Lapetino.

PS: Is anyone else planning on heading to the Midwest Gaming Classic in a couple weeks? I was thinking of going for the day on Sat.

251. First Special Harmony Game Event Announced

Yahoo group: AVCIL

From: Dan Iacovelli
Topic: 251 Message: 251

Last year we introduced the first annual Harmony Games Featuring 3 rounds of games using the three different homebrew games with the finals ending at VGS 12.
Since that went over big, AVC Online Chairperson,Daniel Iacovelli, deiced to make it
a full time High Score Contest being played on both Atari Age and on AVC Online.
We held a poll from March 18th to April 6th on space shooters and Star Castle
(either scott's or thomas's(cd-w's) version) won
you can read the full rules on how to play the first round at Harmony Games page
[avc.atari-users.net <http://avc.atari-users.net/Harmony.html>] and click on either link listed.

Star Castle will be the first of two special games of the Harmony Games. The Special Game is a game that will be featured at one of our events (either AtariMania or Video Game Summit). Since Star Castle is our first game and will be played at AtariMania at Galloping Ghost Arcade, if you happen to play it at the event and make the high score you win a free admission to Video Game Summit, if you play online and your the top scorer that happens to beat the score done at AtariMania you will win a 25.00 E-cert for cafepress.com (which can be used at any cafepress shop at cafepress.com but you must use it at the avc news stand at least to buy at least one item) [avc.atari-users.net <http://avc.atari-users.net/Events/VGS_files/VGS13-4.txt>]

I'm pleased to announce the new Pre-Order page for VGS t-shirts and posters (as well as Atarimania Posters) is officially up.
unlike the ord one which was basically form this one has a paypal shopping cart(I will accept credit cards with it too(I figured the paypal fee on each item and that is added as shipping)
T-shirts are 17.00 posters are 13.00 if you preorder using the cart and pick up at VGS.
there are also links to those who wish to purchase the items straight through cafepress via the avcnews stand pre-order page price are bit higher though (t shirts 19.74 Posters 14.69 (then you have pay for shipping if its 5 and under it 5.00 then .75 after that(anything more them 5 it's 7.00 plus .75 after) orders using the shopping cart must be done before 7-9-13 so I can have it ready before the show(after that you can still order via cafepress from the pre order page until 7-15-13 then I will do the change over from old style VGS to the new ones(All posters will also be going on sale(except for the jagfest poster) as they will be officially removed when the sale is over)
Links to new pre order page can be found in the menu on the register pages

I had to unfortunately, end pre-orders today for the the following reasons:
I ran into pricing problems with the second set: first the shipping
charge was extremely high and then the one e-cert I thought wasn't used
was already.
then when checked with my budget on open office calc my estimated budget
gave the show negative 100 If I added the event insurance it would be 200)
(plus as I didn't get any pre-orders in I'm going to cut my cost sell
the shirts I have from first order(small 4 med 2 large
(they shiped me an extra small shirt I thought I counted right but didn't)
I will take orders for the other version of the shirts at the show(cost
might be a bit higher though)
the second order will only have 12 posters (4 vgs 4 am version 1 and am
version2)
the paypal part of the order form has now been removed and the cafepress
links are still active though if you want to have it home delivery.

From: Dan Iacovelli
Topic: 274 Message: 274

Following the steps from the success of the 2013 Harmony Games and two special games from last year, We will once again bringing it back this year.

The Harmony Games is a High Score Club to celebrate the homebrew games of the
2600,in 2012 it was originally a 3 round tournament with the same games being
played at VGS'12. In 2013, with the success of the 2012 games it was decided to
expand the season from 3 rounds to 12 and with the introduction of Atarimania we
decided to include one round for those to play at the event to win a free ticket
to VGS'13(due to technical problems, it wasn't possible) and we also had special
game at VGS'13 as well,which went fairly well.

The 2014 Harmony Games start on April 14th and end on September 29th.

AtariMania is scheduled for May 17th,2014 from noon to 7pm

recently while talking with with the sales person at fairfield inn and
suites who rents out heron point. I found out that after this year they
will no longer have control of heron point due to new management.
So this will mark our final year at heron point. as we were planning to
move anyways.
our 2015 location is still yet to be determined and prob be announced a
few months after this show (possibly near november)
if wish to see this show stay alive consider purchasing either a
rare black VGS shirt or Rare Black Jagfest Tour shirt from our
Crowd Funding projects our goal is to reach 102 profit on each or at
least sell 10 or more to make a profit
you can find both shirts here: http://videogamesummit.netS/?page_id=137
or final projects for this year will be in June
(coming to the show, choose the option for pick up when you order and
save on shipping)

From: Dan Iacovelli
Topic: 283 Message: 283

I want to say thanks for supporting the show, we couldn't have gone this
far with you(vendors,sponsors,staff and of course attendees)

As for 2015, thats up in the air, the staff and my self are looking at
few places now
our one goal is to get 5000 sqft which would give us 32 8 by 10 booths
and possible new gaming area.
in order for us get that and help get our cost lower is by our
crowdfunding projects
our new one is up now at videogamesummit.net/?page_id=137
all three shirts are there(VGS,Jagfest and Turbofest) plus a donation
button for paypal donations. no incentives if your wondering, maybe in
2015 if we reach our goal might have something like e-certs for my shop.
there are also goal meters on the page to see the progress plus a list
of who donated.(the cash goal meter is at 30.00 because it counts the
the 10 from EGSA and the 20 I got from Dan baily at show)
incase your wondering we did make a profit which will be invested for a
possible 2015 show.
now the search is on for a new 2015 location,so on behalf of the staff
be sure check out our crowdfunder page and either donate or buy a shirt
or shirts so we can make the show in 2015 a realality(I plan to work on
video soon to help promote the crowdfunder,if you have any pics from
past shows send them to me at dan@... and they might be
used in the video plus they will go in the new vgs photo album online
which should be up before September)

Hello Members,
Due to technical problems with web server that host both
AVC Online and VGS website's it will be down for some time until they
get it fixed(it needs new CPU fan
and Rob (who runs the atari-users.net where both sites are) has ordered
a new one)
So right now there is no plan to do a back up site for AVC Online, How
ever we have put up
a back up(basic non-word press) site for VGS on angelfire (which was the
old home of AVC Online)
it can be reached at http://avc.videogamesummit.net (its still a work in
progress as we working on adding
some items based on the wordpress version but in basic html. most of
important pages are up some still need work on
links to sites on slide shows can't be done and its not automatic slide
like on wordpress,descriptions are being added later on for vendors and
sponsors)
the back up site will still be active after the server is fixed as well
updated for those who go there

Since Cafepress ended production of printed material some time ago we started working on getting
our printed material moved to magcloud.
We did have some jagfest issues at magcloud before but quality on the covers wasn't great, we fixed that issue

for Atari Jaguar dealers(or Atari sellers) All ads must be Atari or Jaguar related(non-atar/jaguar will not be allowed)
Space is limited based actual pages in issue and price is just the price of the issue (print fee+shipping and mark up)

support is open 7 days a week from 7am till 9pm central and can be found on the contact pages
of each website (wordpress and html versions of Video Game summit sites and on AVC online (avc.atari-users.net)
